DETAILED ACTION

Status of Claims

1. Applicant's Appeal Brief filed 6/2/2009 has been received. Current pending claims are 41-58. Claims 1-40 have been cancelled.

Response to Arguments

2. Applicant's arguments presented in the Appeal brief, filed on 6/2/2009, have been considered. Applicant's arguments are persuasive. The applicant's argument, pg. 25 of Appeal Brief, that Wied (EPO Publication No. EP0768050) in view of Tadaharu (JP Patent Publication No. JP2000-254087) does not teach the limitations of claim 50 are persuasive. An Examiner's Amendment is being made to incorporate the aligned fluid passage openings in the drawing guide rails in a washing machine. Accordingly, the 103 (a) rejection of claims 41-58 over Wied (EPO Publication No. EP0768050) in view of Tadaharu (JP Patent Publication No. JP2000-254087).are withdrawn.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Douglas McAllister on 8/7/2009.

The application has been amended as follows:

In claim 41, Line 1, please delete "drawer in a chamber" and replace with "drawer in a washing chamber"

In claim 41, Line 17, please delete "through the cage when the chamber is in use." and replace with "through the cage when the chamber is in use; wherein both the guide rails of the drawer guides and the cages for the rolling members of the drawer guides are provided with fluid passage openings."

In claim 51, Line 1, please delete "a method in accordance with claim 50" and replace with "a method in accordance with claim 41".

Please cancel claims 50 and 57.

Add new claim 59 which reads " A method for providing a drawer guide for a drawer in a washing chamber through which there is a flow of liquid or gas at an elevated pressure, comprising the steps of:

providing a plurality of guide rails for said drawer guide, wherein one guide rail is associated with said drawer and another guide rail is associated with said chamber;

providing a rolling member assembly with rolling members for guiding one of the guide rails in a displaceable manner on another guide rail in a direction of movement of the drawer;

providing a cage for the rolling members; providing a rear cage portion on said cage, said rear cage portion including at least one partial section that extends in the direction of movement of the drawer and is provided with fluid passage openings in such a manner that said liquid or gas is adapted to flow through the cage when the chamber is in use; wherein at least one of the guide rails of the drawer guide and at least one cage for the rolling members of the same drawer guide are provided with fluid passage openings; wherein when the drawer guide is pushed completely

into an interior of said chamber, at least one fluid passage opening in the guide rail and at least one fluid passage opening in the cage for the rolling members are aligned with one another."

Allowable Subject Matter

4. Claims 41-49, 51-56, and 58-59 are allowed.
5. The following is an examiner's statement of reasons for allowance: Wied (EPO Publication No. EP0768050) in view of Tadaharu (JP Patent Publication No. JP2000-254087) West et al. does not teach or suggest the fluid passage openings of both guide rails and the cages nor the alignment of the guide rails and cages in the method of cleaning (with the other features of the claim).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
